Different Cultures. Unique Solutions.

Perto has been actively exporting its self-service banking terminals to many countries, where each client has specific requirements that often involve engineering tailor made solutions.

Perto is active in the segments of banking automation, self-service terminals, payment systems and also supplies cash dispensing mechanisms and depository mechanisms on an OEM basis. Perto's headquarters are located in Gravataí near the city of Porto Alegre in southern Brazil, and count on 33,000m² of industrial facilities. Perto has its own sales and service centers in 12 major cities, and a certified network of authorized service providers that cover all of Brazil and the countries to which it exports. The company's solid industrial, engineering and financial structure allows it to offer several product lines which can be tailored to client specific necessities. Following the principles of constant innovation, a flexible industrial infrastructure and focus on the client, Perto is ready to meet and exceed customer and market expectations.
